

Preschool Program

Preschool at Kidzone helps children build reading skills, self-confidence and a love of learning. To meet the developmental needs of three, four, and five year olds, we offer programs based upon the latest research and best practices in child development and early education.

The preschool room is divided into clearly defined learning areas, each offering a wide range of interesting materials and activities at a child's eye level.

Kidzone

Preschool & Childcare Center, LLC

"My daughter and I love your preschool program. I know that she loves it because she talks about it to everyone, all the time. She is always talking about her teachers and her friends. She absolutely loves learning at Kidzone. Also, she never wants to leave when I come to pick her up. I love all the smiley faces and the warm greetings. Kidzone has an exceptional staff! You all should be very proud of yourselves. Again I appreciate you for giving my daughter a head start and a solid foundation on her academic endeavors."

Shirica, Preschool Parent

EARLY START

A PRESCHOOL CURRICULUM

www.earlystart.biz

Early Start is a complete curriculum program for children ages 3-5, available all 12 months of the year. Each month Early Start provides new activities in math, science, reading readiness, colors, shapes, alphabet letters and sounds, pre-writing, thinking skills and discussions. To enhance these activities Early Start provides poems, finger plays, songs, stories, games, movement and physical activities, cooking, and craft ideas. Each day's activities are designed to involve each child in the learning process both mentally and physically. The activity paper provided for each day reviews the learning activities of the day and gives each child a "take-home" to share with his or her family. This activity paper, along with our monthly parent newsletter, keeps families informed of the learning activities provided.

Daily Schedule

6:00am-8:45am	Arrival & Breakfast

(Kidzone serves ages: 2 weeks old through 12 Years)

Children can explore and engage in hands on experiences, like using their five senses!

Philosophy

We believe that each child is a unique person who has the potential to grow and develop into a mature and responsible adult. A child should have an environment that is nurturing, fun, safe, and challenging. An environment that provides for his physical, emotional, social and intellectual needs. Each day is one of choices, explore feelings, and solve their own problems. Our center provides an atmosphere where children actively participate. Kidzone emphasizes child-initiated learning within a culturally diverse community, by offering variety, and Godly morals and values, we can ensure each child's style of learning will be accommodated each day.

Ready to Read Program

If your child will be 4 years old by Dec. 1st and will be entering kindergarten the following year, Kidzone will ask all parents to fill out a Reading goal setting form in the fall for their child. In the fall and spring, Kidzone will fill out a progress report on your preschooler and meet with you to discuss your child's progress. The following learning areas to be covered are Language/ Reading, Fine Motor/Writing, Math, Social, Creative Arts, Work
